THEME: CDN CENTENNIAL**

Editor's Message

Our next meeting is Wednesday, **JULY 8, 2015 AT **7 P.M.** (DOORS OPEN 6 P.M.)!** Theme is 1967 collectibles. **Len Kuenzig** will do a presentation on the **Canadian Centennial Collectors**, as well as give an update on their project for the 150th (1867–2017). **Meeting is NOT on July 1st due to Canada Day holiday!** Check out this **Jeff Fournier** You Tube video: <https://www.youtube.com/watch?v=FPxq1WqzGzg> to learn more about the club.

Scott Douglas's DYK article will return next issue, unavailable due to a conflict with the CNRS Transactions schedule this month. **Mike** advised the 2 new dealers we had in our spring show were happy, so expect to see them at other shows. We were pleased to welcome **Joseph Prokipcak** of **ecoins** (Ottawa) and **Richard Whitelaw** of **Academy Collectables** (Oakville). If you missed the article in the May 26, 2015 **KP Numismatic News** by **Richard Giedroyc** (Knight of St. Eligius) check it out. He explains what the Philippines are doing to ban coin collecting and treat it as "hoarding". Very interesting article, and unusual step by a country. Guess this country could take a lesson from Canada on how to have a very profitable national mint by issuing collectable coins and promoting the hobby of collecting!

We lost another numismatic giant in June 2015, **Charles D. Moore (Chuck)**. These pictures are courtesy of the RCNA. See inside this issue for more. **Chuck** will be missed by many!

Club Report & News reported by **Mike Hollingshead****Here's SWCS June 3, 2015 meeting report :**

ScottD showed the propotype for the club's Wellington medal and took orders.

Actual Size.....

The **new Executive** was confirmed for a 3 year term.

Peter H-D was given a book—'Jim Charlton Coinman To Canadians'—donated by **Jim Charlton's son**.

Members present enjoyed our **annual pizza day**. Thanks **LenK** for ordering the pizza.

Speakers / Presentations:**JUNE'S EDUCATIONAL PRESENTATION**

Scott Douglas gave a short presentation on Dr. Barnardo Home Children and their medals. The presentation was well-received with several questions.

A few SWCS members took lists of some of the books available on Barnardo. Refer back to **Scott's** Did You Know article #32 of September 2009 "Dr. Thomas Barnardo" inside The First Fifty book given to SWCS members in 2012. Also see page 6 of this newsletter.

Ron Hattle, President of the Wellington County Historical Society (Fergus) dropped by and gave an update on the June 20th gala at the Wellington County Museum and Archive with respect to the 175th Anniversary of the District of Wellington.

Ron stayed for the Barnardo presentation, and also participated in the auction. Maybe **Ron** will come back and even join our club!

Members are encouraged to attend the June 20 event. See the details in the next column.

**Apologies!**

Our sincere apologies to **Heather** and **Peter**. Last issue SWCS *Wellington Circular* read **Heather Horne-Dues** and should have been **Heather Hoddinott**. The issue also read **Peter Horne-Dues** and should have been **Peter Horne deus**.

As well, like the CCN misprint, **Cassidy** explains her name is **Stroud** not **Shroud**. Again our apologies.

The new education benefit 'flyer' promoted the RCNA Coin Kids course Canadian Coins 101 (for kids under 18); however, this course is temporarily suspended as it's overhauled for modernization. **Lisa McPherson** will let us know when it's available again for enrollment or you can monitor the RCNA website education page for updates. We apologize for any inconvenience.

The SWCS coin show picture of **Hugh Land** read "grandfather" transcribed from an e-mail reading "gfather" which could have stood for grandfather or godfather, but we are pretty sure neither applies to **Hugh**. This should have read **Robert's** "father". Again our sincere apologies!

Club Report & News continued**June Draw Winners:**

- Members Draw: **Ray Zoethout** who was not present, so next month's draw will be for **\$20**.
- King Arthur's Treasure: was a total of ? items was won by a lucky **Gerry**.
- Door Prize Draws: Prizes **Peter H-D x 3, MelB x 2, Charlie and John**.

Monthly Auction:

As **MikeH** was away in Cuba, **ScottD** was the auctioneer and **LenK** the runner.

The commission charged to consignors: Sold for under \$20, auction fee is 25 cents and items sold for over \$20 fee is \$1. Pretty simple. No buyers premium, no sales tax. Bring your items to consign to the meeting or contact **Lowell Wierstra** at ljwierstra@rogers.com or phone 519-824-6534! Please use the new consignment form. SWCS recently purchased 3 collections from the estates of 3 non-SWCS members, and we look forward to offering you a wider variety of items during the 2015 year.

In Memory Of Chuck, A Dedicated Numismatist & Friend

On June 11, 2015, we lost another esteemed numismatist, as Charles D. Moore (Chuck) passed away in Walnut Creek (California). Chuck was a mentor, role model, numismatic expert, sharp businessman, and a true friend to many. He also regularly gave back to the community. I had three contacts with Chuck, the first was when he sent an email in 2012 while vacationing on his boat to let me know how much he enjoyed the RCNA's Numis Notes e-bulletin (especially when he's traveling), the second was at an awards banquet where he was very active in supporting the CoinKids program, and the third was in discussing a consignment opportunity. I remember being amazed that he took time out of his busy schedule to reach out to a new editor and encourage her to continue her efforts.

In 2010, Moore was awarded the J. D. Ferguson Award – Canadian numismatics' highest honour – for his numerous contributions to the hobby, and in 2008 he received Fellow of the RCNA. At the time of his death, he was a chairman of the Canadian Association for Numismatic Education (CAFNE), which provides grants for numismatic education.

Charles D. Moore aka "Chuck" started Moore's business in

Toronto (Ontario) in July 1969 and held their first public auction in April of 1977, the Ontario Numismatic Association's convention sale. Since 1977 Moore's has held 128 public and Mail Bid Auction sales, and currently conducts two major auctions in Canada each year.

MOORE'S has conducted multiple auctions for the Royal Canadian Numismatic Association (R.C.N.A.), the Ontario Numismatic Association, (O.N.A.), the Canadian Association of Numismatic Dealers, (C.A.N.D.), The Toronto International Coin Fair, (T.I.C.F.), and TOREX, Canada's oldest commercial show, as well as for many other numismatic clubs and associations.

Since 1977 MOORE'S has sold over \$100,000,000.00 of primarily Canadian coins, tokens and banknotes for over 2,000 individual consignors to over 25,000 collectors. MOORE'S highlight auctions include three sales for the Bank of Canada, selling one of the most valuable collections to ever be auctioned in Canada. Over the decades MOORE'S has set numerous world price records for Canadian coins and banknotes, including in 2010 when a Bank of Vancouver, \$5.00 note of the 1910 issue, with serial number 000001 realized \$150,000.00. While most the material auctioned over the decades by MOORE'S has been Canadian and Newfoundland decimal coinage, Government and Chartered Bank Notes and Colonial tokens, significant collections of historical medals, United States and world coins and banknotes and ancient Greek and Roman coinage have also been featured.

Charles D. Moore, the President of MOORE'S is a thirty-eight year Life member and a Fellow of the Royal Canadian Numismatic Association and served twenty-seven years on the R.C.N.A. board, as well as a term as Vice President and two terms as President of the Association. Mr. Moore is also a thirty-four year Life Member of the Canadian Paper Money Society, (C.P.M.S.), a thirty year board member and both a Vice President and President of the Society. Mr. Moore was also a founding Charter member of the Canadian Association of Numismatic Dealers, (C.A.N.D.), and served terms as both Vice President and President of the Association.

In addition to serving on elected boards and executive positions, Mr. Moore has worked in numerous capacities behind the scenes promoting Canadian numismatics, and bringing collectors and dealers together.

There will be a memorial to honour Charles D. Moore held in Canada in the fall of 2015.

**We'll miss you Chuck!
Rest In Peace!**

An island nation located east of Australia, Nauru is the smallest island country in the world. It was known in the 1980's for a booming phosphate mining but is now a quiet island off the radar of tourists. Formerly known as Pleasant Island, its phosphate resources are now depleted, leading to a 90% national unemployment rate, with the remaining 10% employed by the government. Nauru is also known as the country with the most obese people in the world, with 97% of its men and 93% of women being obese or overweight. Because of this, Nauru is also home to the world's highest level of type 2 diabetes, with 40% of its population suffering from the ailment.

A veteran of combat over Iraq, the Tornado is western Europe's most important strike aircraft. It resulted from a late 1960s feasibility study conducted by Belgium, Canada, Germany, Italy, the Netherlands, and the UK (Belgium, Canada, and the Netherlands subsequently withdrew). Panavia was formed in March 1969 to develop and build the aircraft, dubbed the MRCA (Multi Role Combat Aircraft), with formal development beginning in mid 1970.

The first of nine prototypes flew for the first time on August 14, 1974; production aircraft were delivered from July 1980. Orders stand at 828 with the last due to be delivered to Saudi Arabia in 1998. The Tornado features variable geometry wings, two Turbo-Union RB199 engines (developed specifically by a consortium of Rolls-Royce, MTU and FiatAvio), a Texas Instruments radar with terrain following and ground mapping, fly-by-wire, and a Ferranti built digital INS.

Dr. Thomas John Bernardo

Thomas John Bernardo (4 July 1845–19 September 1905) was a philanthropist, founder and director of homes for poor children, born in Dublin. From the foundation of the first Barnardo's home in 1870 to the date of Barnardo's death, nearly 100,000 children had been rescued, trained and given a better life. At the time of Jack the Ripper murders, because Jack had medical expertise, Dr. Barnardo was one of the doctors in the area suspected of being the Ripper. By 1970 this number reached 350,000 children who went through Barnardo's homes.

From the late 1860s right up to 1948, there were 118,000 children of all ages who were emigrated right across Canada to be used as indentured farm workers and domestics. Believed by Canadians to be orphans, only 2% truly were. These children were sent to Canada by over 50 organizations including the well-known and still working charities: Barnardo's, The Salvation Army, and Quarrier's, to name a few.

CEO and founder of the British Home Child Advocacy and Research Association (BHCARA) Lori Oschefska says, "Barnardo's sent over 30,000 children here and was by far the largest organization sending children to Canada. Many BHC became known as 'Barnardo Home Boys' despite the fact many came from other organizations.

CSIR and Note Printing Australia

Paper banknotes wear out quickly, particularly if they get wet. They are also fairly easy to counterfeit — despite security measures, such as watermarks and having metallic threads within the notes. The emergence of colour photocopiers and scanners has made it easier to reproduce paper money.

A great Aussie solution

CSIRO and Note Printing Australia (part of the Reserve Bank of Australia) developed polymer money. The world's first polymer banknote was the \$10 commemorative note issued in January 1988 to mark the Australian Bicentenary. By 1996, all Australians were using plastic money, and that doesn't mean whipping out their credit cards! The new bills are much more durable and have proven a challenge for counterfeiters.

How does it work?

Australia's plastic money is made of a non-porous polymer with a specially developed protective coating so the notes stay cleaner and don't absorb moisture. They last on average 4-5 times longer in circulation, with the plastic \$5 note lasting for around 40 months, compared to 6 months for the paper \$5. After it does wear out, polymer money is recycled into plastic products such as com-

post bins and plumbing fittings.

The polymer substrate behaves a lot like paper and conventional printing techniques are used to apply ink to the surface. The major security measure is a see-through window which makes the plastic money difficult to reproduce using photocopiers and scanners.

The future

Australia was the first country to have all polymer banknotes, but the rest of the world is starting to follow our lead — Canada has progressed rapidly the last few years. Note Printing Australia has produced banknotes for Thailand, Indonesia, Papua New Guinea, Kuwait, Western Samoa, Singapore, Brunei, Sri Lanka and New Zealand.

Blank polymer substrate is also sold to a number of countries that print bank notes using their own facilities. The material is supplied by Securrency Pty Ltd, a joint venture between the Reserve Bank of Australia and Union Chemie Belge, a Belgium based chemical firm. Together with CSIRO, they are pushing towards better polymer substrates and new tricks to outsmart counterfeiters.

Fun-Shaped Foreign Coins

A fan-shaped Proof sterling silver 10-zloty commemorative coin marking the occasion of the World Exhibition Expo 2005, held in Aichi, Japan, was issued in March by the National Bank of Poland. For the occasion of the Euro 2012 football championship, the host countries (Poland and Ukraine) also issued some odd shaped silver coins in 10.000 pieces. Finally, another curious piece for the Euro 2012 football championship is 4 pieces of 10 zloty coins that fit together to form a flag!

The most oddly shaped coin has to be the .999 fine silver 2002 \$10 issue from the Republic of Nauru, an island republic located in the western Pacific Ocean. The Proof coin celebrates the introduction of the euro with a coin shaped in the outline of the nations that comprise the European Economic Union.

The silver Proof 5000 Kwacha coin issued by Zambia to commemorate the 2000 Sydney Olympics is one of the strangest shaped coins ever issued. The unusual coin was made in the shape of

the conjoined maps of Australia and Zambia. Though Australia is approximately ten times the size of Zambia, the two are shown to be roughly the same area on the coin, and while northern Zambia is attached to Northern Australia, the countries are halfway around the world from each other! The large size coin is approximately 49mm x 42mm and contains approximately one troy ounce of silver.

Happy Couple Driving Off On Their Honeymoon To Tim Horton's

Your Editor's family has been facing the challenges of dealing with a 'loved one' who is progressing deeper into the stages of the dreaded 'hereditary' Alzheimer's disease. Sometimes, the stress and distress is so mounting, that humor is the only salvation. So one of my sisters, sent this story to me, and I thought readers might enjoy it!

He was a widower and she a widow—both on fixed incomes and some earnings from their remaining small but treasured numismatic collections. They had known each other for a number of years being high school classmates and having attended class reunions in the past without fail. This 60th Anniversary of their class, the widower and widow made a foursome with two other singles. They had a wonderful evening, their spirits high. The widower throwing admiring glances across the table. The widow smiling coyly back at him. Finally, he picked up courage to ask her, "Will you marry me, I'm not a millionaire, I can't give you the life of Riley, but I can give you a Tim Horton's coffee once a week?" After about six seconds of careful consideration, she answered, "Yes...Yes, I will — but you have to throw a triple chocolate donut in with the coffee!" The evening ended on a happy note for the widower.

But... the next morning he was troubled. Did she say "Yes" or did she says "No?" He couldn't remember! Try as he would, he just could not recall. He went over the conversation of the previous evening, but his mind was blank. He remembered asking the question but for the life of him, he could not recall her response. With fear and trepidation, he picked up the phone to call her.

First, he explained that he couldn't remember as well as he used to. Then he reviewed the past evening. As he gained a little more courage, he then inquired of her, "When I asked if you would marry me, did you say 'Yes' or did you say 'No'?"

"Why you silly man, I said 'Yes...Yes, I will. And I meant it with all my heart." Then she continued, "And I am so glad you called because I couldn't remember who asked me, and I am ready for my coffee and donut!"
